

# LIVE, WORK, AND PLAY USING TECHNOLOGY:

An Educational Series Showcasing Technology That Promotes Inclusion

Session 1: Technology That Supports Inclusive Living: April 13, 2022, 2:00pm - 3:30pm

Session 2: Technology That Supports Employment: May 3, 2022, 2:00pm - 3:30pm

Session 3: Technology That Supports Having Fun: May 10, 2022, 2:00pm - 3:30pm

Assistive technology is a term for assistive, adaptive, and rehabilitative devices for people with disabilities and the elderly. People with disabilities often have difficulty completing activities of daily living independently, or even with assistance.

Assistive technology promotes greater interdependence by enabling people to do tasks they were formerly unable to complete. Assistive technology can address many safety needs that are brought up by those who know and care for people with disabilities. Addressing these needs with technology offers greater autonomy for those needing the technology supports.

## Learning objectives:

- 1) Discover both low tech. and high tech. ideas
- 2) Gain knowledge about recently developed technology
- 3) Explore safety devices that enhance interdependence
- 4) Learn how you can explore assistive technology devices
- 5) Hear information about the statewide assistive technology loan fund

Staff of the Michigan Disability Rights Coalition will give a 3-part, interactive presentation series starting on April 13, 2022, from 2:00pm-3:30pm.

## FREE-VIRTUAL EDUCATIONAL OPPORTUNITY
