

## Now Recruiting Members

# Technical Advisory Group

### We need your help!

Your expertise will help guide our work on preventive health screenings for people with disabilities. Preventive health screenings catch health problems, like diabetes or cancer, before they become serious. Right now, people with disabilities do not get as many screenings as others.

### Group members will:

- Talk about barriers to health screenings
- Discuss solutions for more accessible health screenings
- Provide feedback on resources for healthcare providers, like doctors and nurses
- Meet on Zoom up to 20 times from February to July 2025
- Receive a small stipend for your valuable time and experience
- Be 16 years or older

### Interested?

Apply online by January 24, 2025 by clicking this link:
