

Protect Yourself, Protect Others

Caretakers often work closely with people with disabilities, who can be at high risk of getting very sick with COVID-19.

Close contact while caring for others increases the risk of getting and spreading COVID-19. This is especially true if individuals you are working with are not able to wear a mask due to health reasons.

Getting the COVID-19 vaccine means that you will protect yourself, your family, and the people you care for.

You may be worried or have questions about the COVID-19 vaccine, and that is okay! Remember that knowledge is power. Gather the [facts](#), and [find credible vaccine information](#).

It can help to hear of others' COVID-19 vaccination experience. [Listen to testimonials from Michiganders](#) of how getting the COVID-19 vaccine went for them.

It takes all of us to get vaccinated and back to normal life! **Text your zip code to 438829** to find where you can get a vaccine near you.
