To: Pre-Paid Inpatient Health Plans (PIHP) and Community Mental Health Service Plans (CMHSP) Chief Executive Officers, Case Managers/Supports Coordinators, Community Mental Health National Core Indicators (NCI) Liaisons

From: Michigan Developmental Disabilities Institute, Wayne State University

Date: January 14, 2020

The Michigan Department of Health and Human Services (MDHHS), Behavioral Health and Developmental Disabilities Administration (BHDDA) has contracted with the Michigan Developmental Disabilities Institute (MI-DDI) at Wayne State University to assist with the ***Michigan National Core Indicators Program*** and the ***Michigan Home and Community Based Services Transition Project***.

The ***Michigan National Core Indicators (NCI)*** is implemented in 47 states including Michigan that surveys adults with disabilities. The core indicators are standard measures used across states to assess the outcomes of services provided to individuals and families. Indicators address key areas of concern including employment, rights, service planning, community inclusion, choice, and health and safety. MI-DDI staff and MI-DDI contractors will be interviewing individuals who have an intellectual and/or developmental disability and/or their proxy respondents. This survey process will conclude by **May 31, 2020**.

The ***Michigan Home and Community Based Services (HCBS) Transition Project*** is a statewide project to assist MDHHS/BHDDA to comply with Centers for Medicare and Medicaid Services' (CMS) rule on the delivery of Medicaid's HCBS waiver services and supports. This project will collect data on the characteristics of the HCBS settings and services of the current HCBS beneficiaries and their providers. The HCBS survey will be collected via an online survey system. Surveys invitations will be emailed to respondents in spring 2020. The deadline to submit a survey is **TBD 2020**.
