About the Facilitator

What qualities do you bring to your role as an Independent Facilitator?

I am driven, dedicated, sincere, charismatic, and open-minded person. What motivates me in life is to be a part of something bigger! I am a change agent and advocate for human rights.

Why do you want to serve as an Independent Facilitator?

I like to be very active in the communities where I work and live. If I am able to work with someone to help them manage their life in the best possible ways they want to, I am committed to serving in roles where I can be of assistance in that adventure! I believe that in order to build a better world we all have to be willing to work together to help us better understand each other so that we can all thrive.

What are some skills or expertise that you have as an Independent Facilitator? For example, are you fluent in a language other than English, have experience with augmentative communication devices, etc.?

I am skilled in working with others to help them make sense of the world around them. For example, in my work as a Librarian, I help people navigate how to use technology in meaningful ways to help them succeed in a variety of roles, challenges, and goals. I do, therefore, have a lot of experience with different types of technology and consider myself to be skilled at learning how to use technology.

Are you a member of any professional organizations or groups? If so, which ones?

None related to this. But I am a member of several library professional organizations and one futures/strategic foresight group.
