Besides the Medicaid beneficiary program for transportation supports, I know of Spec-Tran in Lansing. Has anyone used this program and what has been your experience? Spec-Tran is CATA's Americans with Disabilities Act (ADA) complementary paratransit service for people unable to use CATA's fixed-route system. This is an advance reservation, curb-to-curb service that uses small low-floor vans and lift-equipped buses to transport customers.

Spec-Tran customers must be certified in accordance with the Americans with Disabilities Act (ADA). Please download the ADA pre-certification application (PDF).
