11:25:39 From Carolyn : Hi, our son had a PCP/IPOS to request a replacement iPad he's had since 2011. He had all of the proper documentation in place, his plan was amended, and MCCMH refused to even allow the request to go through as a Goods and Service request for AT. He was denied due process and we have a state Medicaid Hearing on this today. This was also done as a request to ensure access to telemedicine during COVID-19. MPAS would not assist him even though this is an obvious Medicaid violation. He has three community access goals in his IPOS as well for using the iPad for his daily communication and daily living skill needs.

11:26:22 From Matt Fritzen : hey google (for google)

11:28:50 From Carolyn : Can someone please direct us to an agency that can assist our son with the above concern? Thank you!

11:29:11 From Khalilah : With COVID, what measures are being taken to ensure that loaned materials are "sanitary".
