

## **National Core Indicators**

The National Core Indicators (NCI) is a national survey used by developmental disabilities agencies to evaluate the outcomes of services provided to individuals and families. It is used in 45 states including Michigan.

## **Key Areas of Concern**

- Employment
- Rights
- Service planning
- Community inclusion
- Choice
- Health

# Michigan

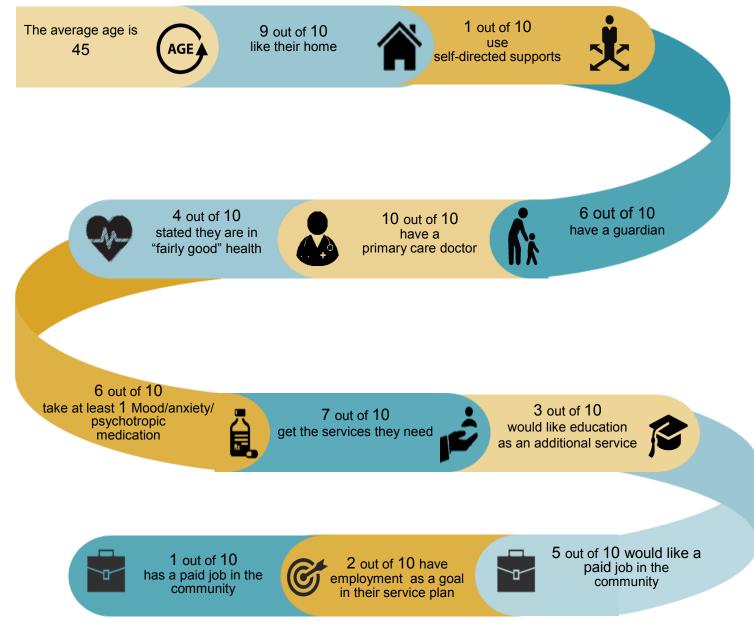

40,000 individual's with Intellectual and/or developmental disabilities receive services from the Michigan Department of Health and Human Services (MDHHS).

In 2015, 410 of those individuals were randomly selected to complete the NCI survey.
