

Michigan Report: 2016 National Core Indicators (NCI) Adult Consumer Survey Outcomes

What is NCI?

NCI is a national survey used by developmental disabilities agencies in 46 states to evaluate the outcomes of services provided to individuals and families.

NCI's Key Areas of Concern

- Employment
- Rights
- Service planning
- Community inclusion
- Choice
- Health
- Safety

Michigan

In 2016, 505 individuals with intellectual and/or developmental disabilities who receive services from the Michigan Department of Health and Human Services were randomly selected to complete the NCI Adult Consumer Survey.
