Meet Alex - The Self-Determinator

MI-DDI at Wayne State University is excited to share the latest addition to its award-winning video series. Each *Possibilities* video depicts the life and accomplishments of individuals with developmental or intellectual disabilities, highlighting how self-determination and community inclusion benefit all people. MI-DDI encourages all individuals to view and share these free videos.

The most recent addition to *Possibilities* features Alex. Known as “The Self-Determinator”, Alex believes that self-determination is an inalienable right and that truly inclusive settings ensure that *all* are equally valued, made to feel safe and welcome.

The *Possibilities* series has been viewed thousands of times and distributed internationally. The videos were shot and edited by [Avalon Films](#), who won a 2012 TASH Positive Images in the Media Award for their work on the series.

Alex’s video, along with all *Possibilities* videos, can be viewed at ddi.wayne.edu/possibilities or can also be found on [YouTube](#). MI-DDI encourages all to view and share these videos with those who would benefit from seeing them.

Alex Kimmel,
The Self-Determinator

Alex is an active and experienced speaker. If you would like to book Alex to speak to your organization or group, he can be reached at:

alex.kimmel@hotmail.com

Alex can also be found at his website:
